Mahler Practice Exams for Exam C

These practice exams have been updated to reflect recent changes in the syllabus.

The first ten practice exams contain 20 questions each (2 hour exams), while the next nine practice exams contain 35 questions each (3.5 hour exams), for a total of 515 questions.

(Your exam will be 35 questions in 3.5 hours. Many people find it helpful to take some shorter practice exams, such as 20 questions in 2 hours. For example, the shorter exams may be more suitable for weekday nights.)

The difficulty and mix of questions by topic on each exam is similar to Exam C.

Complete solutions to problems are at the end of each practice exam.

These are new questions specifically written for these exams by Howard Mahler. These questions are not included in Mahler’s Guides to Exam C, which are sold separately. These practice exams are self-contained.

“Your practice questions were similar in style and format to those on my exam.”
“I thought the questions on my exam were close in difficulty to your practice exams.”
“These practice exams make you think, which is a good thing.”

Author Biography:

Howard C. Mahler is a Fellow of the Casualty Actuarial Society, and a Member of the American Academy of Actuaries. He has taught actuarial exam seminars and published study guides since 1994.

He spent over 20 years in the insurance industry, the last 15 as Vice President and Actuary at the Workers' Compensation Rating and Inspection Bureau of Massachusetts. He has published many major research papers and won the 1987 CAS Dorweiler prize. He served 12 years on the CAS Examination Committee including three years as head of the whole committee (1990-1993).

Mr. Mahler has taught live seminars and/or classes for Exam C, Exam MFE, CAS Exam S, CAS Exam 5, and CAS Exam 8. He has written study guides for all of the above.
